

EVERY ORGAN IS A GIFT. EVERY DETAIL MATTERS.

Successful organ recovery depends on experienced professionals managing every detail from the OR through preservation and preparation for transport. DSS provides Surgical Recovery Coordinators and Organ Recovery Specialists who bring the clinical experience, technical knowledge, and adaptability needed to support recovery teams throughout the donation process.

- Experienced Surgical Recovery Coordinators
- Organ Recovery Specialists
- OR preparation and recovery coordination
- Organ preservation support
- Traditional cold-storage techniques
- Specialized preservation solutions
- Packaging and preparation for transport
- Supplemental, ongoing, and emergent coverage

Experienced. Adaptable. Mission focused.

Our professionals work alongside your team to help protect every lifesaving gift and support a smooth, efficient recovery process.
