

Any mission, anywhere, any time.

DSS specializes in the complex, time-critical air/ground logistics necessary in the organ donor-transplant space, offering 24/7 support and rapid, precise coordination between OPOs, perfusion services, surgical recovery teams, preservation devices, and transplant centers. Our team of organ procurement and transplant experienced professionals facilitate unique partnerships enabled by decades of experience in air ambulance missions and part-135 charter operations. Our vetted partner provider relationships yield exceptional safety, operational efficiency, cost-effectiveness, and streamlined communications.

- Organ-only
- Procurement teams
- Perfusion / preservation teams
- Preservation devices
- OPO Personnel

- Comprehensive mission documentation
- Proof of cost-consistency
- No cost creep
- Supporting strategic planning, budgeting, and organizational decision-making

Transparent pricing - never pay more than your original quote.
